Course Overview

Data is a crucial part of every business. Finding the value in data and presenting that value to your target audience in an understandable way requires effort. To simply present spreadsheets with rows of numbers is not enough to display the value of data. But when data is presented in the form of a story, it is easier for people to understand its importance and react accordingly. Numbers have an important story to tell. They rely on you to give them a clear and convincing voice.
