Course Overview

In today's knowledge-driven economy, organizations must manage information, expertise, and learning with precision. The Certified Knowledge Manager (CKM) program equips professionals to design and lead knowledge systems that enhance collaboration, innovation, and performance. Participants will explore frameworks for knowledge capture, sharing, and retention—while mastering tools for digital integration, culture building, and strategic alignment. Through hands-on labs and real-world case simulations, attendees will gain the skills to turn organizational knowledge into a competitive advantage. Whether managing intellectual capital, leading communities of practice, or embedding learning into workflows, CKM's become architects of sustainable knowledge ecosystems.

Course Objectives

The objective of the **Certified Knowledge Manager** training is to;

- Understand the principles and value of knowledge management in modern organizations.
- Design systems for capturing, organizing, and sharing institutional knowledge.
- Apply tools and techniques for digital knowledge platforms and repositories.
- Build a culture of collaboration, learning, and continuous improvement.
- Align KM initiatives with strategic goals and performance metrics.
- Lead change management efforts to embed KM practices across departments.

Target Groups

This training is suitable to a wide range of professionals but will greatly benefit;

- HR Professionals
